KENT
CONSTRUCTION, INC.

ABOUT KENT

It first began in 1996. Starting as a small local construction company, Kent Construction has grown into one of the top full service contracting firms in Southeast Louisiana and Southern Mississippi.

Today, with over 40 qualified employees, Kent Construction continues to strive for excellence in a wide variety of services. In each and every one of our projects we have integrated our three founding principals of excellence: **Teamwork, Quality and Value.**

Butler Manufacturing Company is the worldwide leader in pre-engineered building solutions. That's why we became a Butler dealer.

DESIGN BUILD

Kent Design-Build gives you greater control, a streamlined completion schedule and improved risk management. Cost is established earlier in the process. Re-designs are eliminated. Construction is expedited. Your project finishes faster. Your expectations are raised higher at a lower cost.

A yellow hard hat is positioned in the bottom left corner. A metal ruler with inch markings is placed diagonally across the center. A black square tool is in the top left. The background is a light-colored wooden surface.

SAFETY

Continuing Safety Education and Training are key parts to Kent Construction, Inc. (KCI) Safety Program, along with a commitment from management and all field personnel to complete each day with zero incidents.

All new hires receive comprehensive safety orientation and haz./com. training. All employees comply with drug and alcohol testing (pre-employment, post accident as well as random screening).

Safety is incorporated into every aspect of KCI's work and planning. Our safety coordinator conducts weekly jobsite audits and quarterly employee safety reviews. All safety incidents are thoroughly investigated for cause and prevention. KCI maintains a Safety Incentive Program for employees in an effort to maintain the highest excellence.
